PROFILE

I am Atilla Kuncoro Djati, a Bachelor's degree graduate in Informatics Engineering from Universitas Mercu Buana, with interests in Front-End Development, Web Development, and Data Analysis. I have experience in website development, programming, and data processing and analysis through various projects. I am accustomed to learning new technologies, working in a structured manner, and taking responsibility for assigned tasks. I am eager to further develop my skills and contribute through effective and meaningful technology solutions.

WORK EXPERIENCE

PT. Meissa Berkah Teknologi, Depok

March 2025 – May 2025

UI/UX Designer

- Analyzed user needs and designed website user flows based on user requirements and objectives.
- Created Use Cases, User Flows, and Sitemaps to establish an organized information architecture and navigation structure.
- Designed Low-Fidelity and High-Fidelity interfaces with attention to layout, information hierarchy, typography, component consistency, and usability.
- Designed various website pages and key features, including authentication, homepage, search, user profile, bookmarks, content details, and content upload.
- Conducted usability testing using the System Usability Scale (SUS) with 21 respondents to evaluate the website's ease of use.
- Analyzed usability testing results and provided recommendations to improve navigation and interface consistency.

EDUCATION

Universitas Mercu Buana, Jakarta

2022 – 2026

Bachelor of Informatics Engineering – Faculty of Computer Science

- GPA (3.78 / 4.00)
- Thesis: IMPLEMENTASI DAN EVALUASI SISTEM DETEKSI KECURANGAN KUIS ONLINE BERBASIS PEMANTAUAN AKTIVITAS BROWSER DAN KEYSTROKE DYNAMICS.

PROJECT EXPERIENCE

• Final Project – EduSkill Microlearning Web Platform

Developed a full-stack web-based microlearning platform using Laravel 10, Blade, MySQL, JavaScript, jQuery, and AJAX. The system includes multi-role access for Admin and User, course and module management, enrollment, course prerequisites, text/PDF learning materials, multiple-choice and essay quizzes, progress tracking, and certificates. Integrated the OpenAI API to automatically generate quiz questions based on learning materials and developed a Quiz Integrity Mode to detect activities such as tab switching, loss of browser focus, and other violations during quizzes.

• Bening Studio – AI Image Processing Desktop Applicatin

Developed a Windows desktop application for background removal, image resizing, and image upscaling, featuring before-and-after previews, drag-and-drop image input, processing options, and transparent PNG export. The project was developed as part of my learning experience in desktop application development and image processing.

• Flood Classification and Prediction Using Naïve Bayes

Developed a Data Science and Machine Learning project to predict and classify flood events in Jakarta using the Naïve Bayes algorithm. Performed data exploration and processing, evaluated the model using Confusion Matrix, Accuracy, Precision, and Recall, and created data distribution visualizations and geographical mapping of flood-affected areas.

- **Restaurant Table Booking System – Full-Stack Web Application**
Developed a web-based restaurant table reservation system using Laravel to help users manage table bookings in a more structured manner. The system supports reservation processes between customers and restaurant staff, including booking schedule management and reservation data management through a database-driven system.
- **Sales Dashboard Web Application**
Developed a sales dashboard web application using Laravel and MySQL for managing products and sales data. Implemented authentication, product CRUD operations, multi-user management, statistical dashboards, and report generation with PDF export functionality.

CERTIFICATIONS

Software Engineer Badan Nasional Sertifikasi Profesi (BNSP) <i>Completed competency assessment under the Software Engineer scheme at LSP-P1 Universitas Mercu Buana.</i>	April 2026
Internship Certificate – UI/UX Designer — PT. Meissa Berkah Teknologi. <i>Completed an internship as a UI/UX Designer, contributing to user flow, interface design, prototyping, and usability evaluation.</i>	May 2025
React Basics — Meta / Coursera. <i>Completed a Meta-authorized course covering React fundamentals and front-end application development.</i>	June 2026
Programming with JavaScript — Meta / Coursera. <i>Completed a Meta-authorized course covering JavaScript fundamentals and web development.</i>	June 2026
Programming in Python — Meta / Coursera. <i>Completed a Meta-authorized course covering Python fundamentals, programming logic, and data structures.</i>	June 2026
CCNAv7: Introduction to Networks — Cisco Networking Academy <i>Completed coursework covering networking fundamentals, IP addressing, protocols, and basic network configuration.</i>	July 2023
Finalist – PHKM (Pameran Hasil Karya Mahasiswa), Aplikasi TI <i>Selected as a finalist for Lafapra, a Restaurant Table Booking System, at PHKM organized by the Faculty of Computer Science, Universitas Mercu Buana</i>	July 2024

LANGUAGES AND SKILLS

- **Languages:** Bahasa Indonesia (Native), English (Intermediate).
- **Programming:** JavaScript, PHP, Python, SQL.
- **Web Development:** Laravel, React.js, HTML, CSS, Bootstrap, REST API.
- **Database & Data:** MySQL, SQL, Jupyter Notebook, NumPy, Data Analysis, Data Visualization, Naïve Bayes.
- **UI/UX & Design:** Figma, Canva, Wireframing, Prototyping, User Flow, Low-Fidelity, High-Fidelity, Usability Testing, Blender (Basic).
- **AI & Coding Tools:** ChatGPT/GPT, Codex, Claude, Claude Code, Gemini, DeepSeek.
- **Tools:** Git, GitHub, Microsoft Word, Excel, PowerPoint.
- **Soft Skills:** Problem Solving, Teamwork, Adaptability, Responsibility, Continuous Learning.
